Re: Transfer Station 2018 Western Star repair

Chelsea.

As far as the repair, there is not much to discuss. It has to be done. We cannot work for too long with only the one working truck. We took the 2018 to Bekkala's Diesel today so they can start working on it. Hopefully they can get it done in about a week . I will have more pricing for a new truck in a week or two.

Thanks,

Curt

The adjustment for the valves/rockers is supposed to be every 100,000 miles. The truck currently has 215,000. I am not sure if they were done at 100,000 or not due to that being before I started here. The reason we are 15,000 over this time came down to not being able to take the truck out of service during our busiest time. The Cummins ISX engine that is in the truck has been known to have camshaft/rocker arm/valve issues due to oil not lubricating the internal parts efficiently. While I can't say why it exactly happened, it unfortunately does happen. In the grand scheme of things, this is a pretty minor repair, it is more labor intensive than anything. As far as costs for a new/used truck go, I will have to get back to you on that. I did find a used 2016 Western Star with 650,000 miles on it for \$49,995 as a reference for used trucks (We will still need to add equipment to the truck to make it fit our needs). Because we get government pricing, it usually benefits us to purchase new. The last truck we purchased in 2023 came in at just under \$165k.

Thanks, Curt

Crap, that stinks for a rather new truck. Is that a common problem, I can't believe it is? Any idea how that happened? Is there a lot of miles on it? What is an estimate for a new/slightly used truck?

Subject: Transfer Station 2018 Western Star repair

Good afternoon,

We had our 2018 Western Star over at Keweenaw Trucking for a routine maintenance to adjust the valves on the motor. When they got the valve cover off, and started to do the adjustments, they noticed some damage to one of the rocker arms and camshaft. This is going to be a somewhat extensive repair. Keweenaw Trucking does not have enough time on their schedule to do the repair for at least a month. I talked to Bekkala's Diesel, and they could start the repair next week. We are looking at about \$15-20k for the repair (fingers crossed). Without this truck, we are currently at one truck that can make runs to the landfill. We may have to start thinking about purchasing another truck sooner than later.

Re: 2026 GIS Services and Colligo GIS Subscription

Houghton County, Michigan

Dear Ms. Rheault:

Colligo GIS (Colligo) is pleased to submit this proposal to Houghton County (County) for the above-mentioned services.

Colligo will provide a framework, training, and technical support to enable County personnel to complete many GIS parcel mapping related tasks internally using the Colligo GIS platform. Colligo's role will be to train staff, provide ongoing guidance, and perform specialized technical tasks as needed.

SCOPE OF SERVICES - GIS PARCEL MAPPING TRAINING AND TECHNICAL SUPPORT

Colligo understands that County personnel will take the lead in performing GIS parcel mapping for the County. County personnel will also be the primary party in determining areas of priority for GIS work (e.g., Civil City/Township, parcel density, PLSS Town-Range, platted areas, waterfront). Colligo will work with assigned County personnel to provide training and consultation to guide these decisions.

Colligo will provide structured training sessions for County personnel in the use of the Colligo GIS software platform. Training will include:

- System navigation & functionality orientation to the interface, tools, and workflows.
- Parcel mapping & editing creating, modifying, and rectifying parcel boundaries using Colligo GIS tools.
 - o COGO processes for metes-and-bounds descriptions.
 - o Georeferenced survey maps when descriptions are incomplete or ambiguous.
 - o Best fit analysis using neighboring data, aerial imagery, and other available sources.
- Quality assurance practices verifying data accuracy and consistency across parcels and PLSS grids.
- Public Data Sourcing internet searches for information that could include publicly available Remonumentation GIS spatial data and recorded plats, with the primary source being the Michigan LARA website.

Colligo will provide direct technical assistance for complex mapping issues and integrations. Additionally, Colligo will provide oversight, particularly in densely populated areas where alignment is difficult to ascertain.

Colligo will train County staff to calculate the location of additional Remonumentation points when provided surveys include two or more established points.

Colligo will train County staff to perform parcel boundary rectifications against PLSS Remonumentation data using Colligo GIS tools.

Colligo will provide oversight, review, and correction for more advanced adjustments, particularly in densely populated areas where alignment is critical.

SCOPE OF SERVICES - THIRD-PARTY GIS DATA REQUESTS TRAINING

Colligo will train County personnel in the processes of performing third-party requests for GIS data. All data requests will be managed in accordance with the County's approval and guidelines, ensuring that the information provided aligns with the County's requirements and protocols.

SCOPE OF SERVICES - ADDITIONAL AS-NEEDED GIS SERVICES

Services requested outside the outlined scope will be discussed prior to commencement. If approved these services will be invoiced per the hourly rates listed in the Fees section below.

ASSUMPTIONS

If unforeseen issues arise during the services detailed in this proposal or are not explicitly covered in this proposal and could impact on the project's fee or schedule, Colligo will promptly inform the Client to discuss providing an updated scope of work and fee proposal.

If, during the project, it is determined that additional services or data integration is required by a specific Township or City, the cost of services may increase. In such cases, Colligo will notify the County, Township, or City and provide a written scope of services and cost proposal for approval before proceeding with the work.

If the County assigns Colligo responsibility for fulfilling GIS data requests, associated services will be billed according to the Fees section below.

All data and GIS layers are and will remain the property of the County.

FEES

All Colligo services will be billed at the hourly rates shown below. If these services are determined to exceed the "Anticipated Total" Colligo will notify the County prior to work continuing.

Any travel, lodging, meals, or other related expenses will be invoiced together with these services.

In accordance with the assumptions and conditions set forth in this letter the scope of services listed above will be completed for:

- Colligo GIS Software Annual Subscription\$1,800
- - o Technician 21\$99/Hour
 - o Technician 23......\$110/Hour

PERFORMANCE SCHEDULE

Colligo anticipates starting work upon receipt of a signed Work Order and will perform these services through December 31, 2026. Prior to January 1, 2027, Colligo will review this scope of services with the County before continuing for the year 2027.

If you accept this proposal, please endorse both copies of the attached Agreement and Work Order No. 5 and return one copy to this office. Please retain one copy for your files.

We appreciate the opportunity to submit this proposal. If you have should have any questions, please contact me at (906) 774-3440.

Sincerely, COLLIGO GIS

County Transfer Station Parcel

From Jeff Ratcliffe <jeff@kedabiz.com>

Date Thu 10/16/2025 8:55 AM

To Tom Tikkanen <tomt@pasty.net>; Chelsea Rheault <chelsea@houghtoncounty.gov>

CAUTION: This email originated from outside the organization of Houghton County. Exercise **EXTREME** caution when opening external attachments or links from unknown senders.

Tom/Chelsea:

I had an inquiry yesterday from a small startup manufacturer that is expanding as to whether the County would consider selling a portion of the back of the property that the transfer station sits on. He and another small growing startup manufacturer are looking for a 5-7 acre site where they can build a couple of 5,000 square foot buildings with room for future expansion, access to a Class A road and power. They would like to stay on the south side of the Portage.

Sincerely,

Jeff Ratcliffe

Acute Inpatient Psychiatric Hospitalization

Why is a person admitted to an inpatient unit? People admitted must meet certain criteria, such as imminent risk of harm to self or others due to a mental illness, or being so disorganized they cannot care for themselves.

Where are these located? There are two inpatient units for adults located in the U.P. There are about two dozen units located downstate, some of which admit children.

What happens when a person is admitted to one of these units? Most people are in the unit for a week or

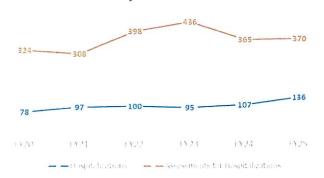

less. The main goal of admission is to stabilize the person's symptoms through medications enough to return them to the community for follow-up with an outpatient treatment provider.

Why does it sometimes take days or weeks to get someone from the emergency room to an inpatient unit? CCMH makes the decision whether to hospitalize a person or safety plan them back home within three hours of the time we are contacted by the emergency room. However, psychiatric units do not have to accept patients for whom we request admission. They can deny our request for any reason. The most common reasons they give us are listed below.

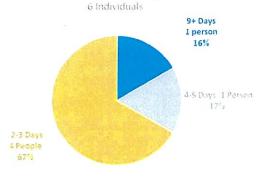

Below is data from October 1, 2024 to September 30, 2025 on multi-day hospital stays.

Multi-Day Stay is defined as the person staying in the emergency room for two or more days.

Psychiatric Hospitalization Transportation

Why does local law enforcement have to transport people to these hospitals? Michigan law is very detailed regarding involuntary psychiatric admission, and it describes the process for transporting patients to inpatient units.

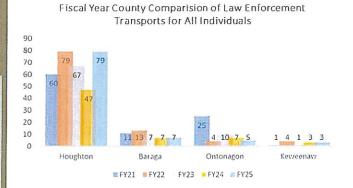

What is the difference between a voluntary and involuntary psychiatric hospitalization?

<u>Voluntary:</u> An individual understands their need for treatment and/or are amenable to recommended inpatient care.

<u>Involuntary:</u> An individual does not understand their need for treatment, and this requires court involvement to temporarily suspend a person's legal right to freedom of movement to ensure necessary treatment steps.

What does CCMH pay for in relationship to inpatient psychiatric hospitalizations? CCMH is responsible for the daily rate for each day that an individual is hospitalized. CCMH also pays for the clinician to complete the assessment and bed search.

Standard Operating Policy & Procedure (SOPP)

Subject: Fiduciary Fees

Date Issued: By: County Administrator

Board Action: Adopted Date:

BACKGROUND: Resources (staff) employed by General Fund Departments perform work on behalf of the other operating funds of the County such as, but not limited to, payroll processing procurement advice, accounts payable and receivable processing. The actual cost of those services is very difficult to determine. For such costs to be assigned to those funds for which they been incurred the County has chosen to establish an equitable policy known as the Fiduciary Fees Standard Operating Policy and Procedure.

POLICY STATEMENT: Effective with the adoption of this policy and procedures it shall be policy of the Board of Commissioners that each year and amount equal to one percent (1%), of the audited expenses incurred by each operating fund in the previous fiscal year, unless excluded or modified by specific action of the Board of Commissioners, shall be charged to said operating funds and transferred to the General Fund as payment for the indirect costs of those services which have been provided by the General Fund to the other operating funds of the County.

PURPOSE: The purpose of this policy and procedures is to ensure that equitable distribution of administrative costs is borne by all operating funds of the County.

SOP FOR THE IMPLEMENTATION OF THE FIDUCIARY FEE POLICY:

- On or before August 30 of each year the Office of the County Administrator will prepare a statement of Fiduciary Fees to be charged to the various funds of the County based upon the parameters of this policy and shall transmit a copy of that statement to the Office of the County Treasurer.
- 2. Within 30 calendar days of the creation of the statement from the Office of the County Administrator the Administrator shall.
 - a. By journal entry, where possible, transfer the amount to be paid by each fund to the General Fund of the County and within 5 calendar days of the posting of the journal entry, notify the Department head and/or chief financial officer of each fund affected by the transaction.
 - b. For those funds where a journal entry transfer is not possible, invoice the appropriate fund and credit the General fund when payment is received.
- The County Administrator is authorized to make changes to these procedures necessary to the
 efficient administration of the policy and shall report any changes to the Board of
 Commissioners.

RESOLUTION OF THE COUNTY OF HOUGHTON BOARD OF COMMISSIONERS

RESOLUTION REQUESTING THAT THE MICHIGAN DEPARTMENT OF HEALTH AND HUMAN SERVICES RELEASE ADDITIONAL FUNDS FROM THE NATIONAL OPIOID LITIGATION SETTLEMENTS

Resolution # 25-028

WHEREAS, communities across Michigan, including Houghton County, have been negatively impacted by the opioid crisis, resulting in increased substance use disorders (SUD), overdose deaths, family disruptions, and strain on public health, safety, and social service systems; and

WHEREAS, that the State of Michigan has received \$1.6 billion in settlement funds from the National Opioid Litigation, intended to remediate and address the widespread harm caused by opioid manufacturers, distributors, and related entities; and

WHEREAS, the Michigan Department of Health and Human Services (MDHHS) serves as the primary administrator of settlement funds on behalf of the State of Michigan; and

WHEREAS, Houghton County and the area's SUD service providers jointly bear the responsibility of implementing prevention, treatment, recovery, and harm reduction strategies and programs, yet are limited in scope and impact due to the slow and insufficient release of funds from MDHHS; and

WHEREAS, the timely release and distribution of additional settlement funds to counties and service providers is essential for ensuring resources are available to expand treatment capacity, strengthen prevention programs, support recover housing, provide mental health services, and reduce the ongoing burden of opioid misuse in our communities.

NOW, THEREFORE, BE IT RESOLVED BY THIS BOARD OF COMMISSIONERS, THAT the Houghton County Board of Commissioners respectfully requests that the Michigan Department of Health and Human Services promptly release additional funds from the National Opioid Litigation settlements to SUD service providers, and counties, including Houghton County, in order to ensure that resources are available where the need is most urgent; and

Good Afternoon,

The Houghton County Recreation Authority was established in November 2022, and, based on the Articles of Incorporation, initial terms are 3 years. Many of the original appointees representing member units of government are still on the board of the authority, but some have been replaced.

As the Secretary, I was charged with randomly allocating staggered term lengths to member jurisdictions following the initial three years. Since some minutia are left unspecified in the Articles and Bylaws, <u>I am interpreting all terms to have started in November 2022 regardless of when individual board members were appointed or when jurisdictions joined the authority;</u> thus, any current board members who were appointed later than that have just been serving out partial terms of the original three-year period.

Based on the Articles, the next round of terms will be equally distributed among one-, two-, and three-year terms. After that I expect they will revert to three years for all members. (For anyone who is paying really close attention, there is a conflict between the Bylaws and Articles regarding term lengths, so for now, the latter prevails and I expect will be corrected in a Bylaws amendment at the January 2026 meeting.)

So here is the important part: <u>every member unit of the Recreation Authority needs to appoint or reappoint their board member, as soon as possible (but not urgently)</u> for the term length specified in the far right column of the table below. <u>Houghton County needs to appoint two members</u>, one of them being designated the primary rep. Please inform me after your appointment(s) has been made. Municipal board reps will also reappoint the nonmotorized and motorized representatives.

I apologize for the inconvenience for any member jurisdictions who have already appointed board reps multiple times, or who had set term lengths varying from below, but I am trying to handle this in the simplest and most objective way possible for the authority as a whole.

Hi Chelsea:

I apologize for the slower response today.

We had the power go out for several hours due to high winds.

I would like to submit the MSUE FY2026 MoA request of \$48,410, which is a \$1,410 increase (3%) for the upcoming county fiscal year.

I would be glad to have further discussions or meet with you/and or the board.

If possible, I would also like to see if there is room on the agenda for an MSUE update to you and the board sometime in the next month or so.

We would like to brief them on past and upcoming programs, including another successful county fair season.

Thanks, and if you need anything or this on letterhead I would be glad to. Have a great a weekend!

Paul
