

The Houghton County Planning Commission met during its regular monthly meeting in April and recommended that the Houghton County Board of Commissioners partner with WUPPDR for the development of the Houghton County Recreation Plan.

Attached following this memo is the proposed contractual agreement from WUPPDR in the amount of \$4,200.00. This expenditure is within the approved budget. WUPPDR has partnered with Houghton County on prior Recreation Plans and is familiar with the County's planning needs and requirements.

Maintaining an updated Recreation Plan on file is necessary for eligibility for Michigan Department of Natural Resources (DNR) grant opportunities.

Recreation Plan Development Base Fees

Item	Fee
New Plan or update to plan over ten years old: <i>quoted individually</i>	Varies
Five-Year Plan update (county): base fee	\$4,200
Five-Year Plan update (municipality/township): base fee	\$3,675
Each additional jurisdiction in joint plans	\$1,500

NOTES:

- All new plans or plan updates requiring submission to DNR by February 1 **must be contracted by July 31 of the preceding year**, unless WUPPDR agrees to an exception.
- Above fees are applicable to traditional county, township, city, and village recreation plans. Plans for recreation/trail authorities will be quoted and contracted on a case-by-case basis.
- "Update" is WUPPDR's terminology; DNR considers every recreation plan to be a new, standalone plan. WUPPDR will conduct an update to a plan ten or fewer years old only if: 1) WUPPDR created the previous plan, OR 2) the previous plan is in a mainstream editable format (e.g. Microsoft Word) and WUPPDR determines it to be of sufficient quality to serve as the basis for an update rather than a new plan. Otherwise we will charge the fee for a new plan.
- Incremental *amendments* (as viewed by DNR) to plans fewer than five years old will be quoted based on estimated actual cost depending on the nature of the amendment.

Base fees (including for additional jurisdiction/unit of government) for Plan Updates includes the following services:

Planning and Document Development:

- Up to three meetings with the contracted unit's recreation committee, which will include, generally, the following respective elements:
 1. Process; components; review of previous plan; input on survey development; and consideration of goals and potential projects
 2. Review of survey results and/or other public input, development of goals and objectives, and development of action program (capital improvement plan)
 3. Attendance at DNR-required public meeting prior to adoption (to address any questions or concerns that may arise – ONLY UPON REQUEST)
- Incorporation of new/updated content resulting from above meetings
- New/updated information and components including, but not limited to, demographics, recreation inventory, maps, and (season-permitting) photos; updates will meet or exceed DNR requirements

Public Input/Review and Plan Adoption Process:

- Input process through one of the following options:
 1. Public input survey including online version and static printable version for each unit of government to copy and distribute as desired (if more than 25 responses to the printable version are received, the contracted unit will be responsible for data entry of the additional responses); a poster with QR code and link for the online survey will also be prepared for distribution.
 2. Facilitated community meeting/forum for public feedback
 3. Other possible method(s) agreed to by WUPPDR and the contracted unit
- Preliminary summary of survey results, including standardized aggregate data and such analysis as WUPPDR determines useful for the planning process
- Preparation and submission of:
 1. Press releases announcing public engagement process(es) to local news media
 2. Notices of public engagement process(es) on WUPPDR website and social media
 3. Official newspaper notice(s) of public review period and public hearing for plan adoption (contracted unit is responsible for the publishing cost of the notice[s] in addition to fees charged by WUPPDR)
- Up to four (4) unbound black and white plan draft copies, as necessary, for *each* contracted unit at second pre-adoption meeting
- Up to two (2) printed, unbound color copies of plan draft for public review plus one (1) for each additional contracted unit of government; PDF for review (sent via email and linked via www.wuppdr.org)
- One (1) unbound color copy of *final draft* of plan for *each* contracted unit at plan adoption meeting(s)

Final Plan Development and Submission:

- PDF of the plan
- One bound color copy of the plan for each contracted unit of government
- One color copy of the plan submitted to each of the following: County Planning Agency (if applicable) and Regional Planning Agency (WUPPDR)
- Submission of plan to DNR on Migrants portal (contracted unit must work with DNR to provide WUPPDR access to its account)
- Preparation and submission of **up to five** required DNR Post-Completion Self-Certification Report forms, with content and necessary photos provided by contracted unit if needed
- Revision of any deficiencies in WUPPDR's error found by DNR upon review; re-submittal as necessary

Board Presentation Script – Enhanced Access Policy Adoption

I would like to request formal adoption and reaffirmation of an **Enhanced Access to Public Records Policy** pursuant to MCL 15.441.

Currently, Houghton County maintains and distributes GIS parcel and assessment-related data to outside parties, including private companies, developers, and other organizations. While we already have an established fee schedule in practice for providing this data, that fee structure has not yet been formally adopted under an Enhanced Access policy that we can locate. It is likely this was adopted years ago when the original State legislation was passed.

Adopting and reaffirming this policy would accomplish a few important things:

First, it provides a clear legal framework for the county to charge reasonable fees for value-added access to our GIS and public records data. This is distinct from standard requests under the Freedom of Information Act (Michigan), which applies to traditional public record requests but does not fully address bulk data, digital datasets, or ongoing access services.

Second, it formalizes and standardizes our existing practices. Right now, we are already providing this data and charging fees, but adoption and reaffirmation of this policy ensures transparency, consistency, and legal defensibility in how those fees are applied.

Third, it helps the county recover costs associated with maintaining, updating, and distributing GIS data. This includes staff time, software, vendor services, and infrastructure—particularly as we continue working with our GIS service providers to improve data accuracy and accessibility.

Lastly, this policy aligns Houghton County with best practices used by many counties across Michigan that provide digital parcel and mapping data to external users.

To be clear, this policy does not restrict public access to records under FOIA. Individuals may still request records in the traditional manner. This policy simply governs enhanced access—such as bulk datasets, digital GIS layers, and subscription-style access—which go beyond standard record requests.

I am asking the Board to formally adopt and reaffirm the Enhanced Access to Public Records Policy and approve the associated fee schedule currently in use by the County.

Request to add additional coverage to County Vehicle

While the warranty itself was not originally included as a budgeted item, the cost remains within the approved budget. At this time, we are requesting approval to obtain additional coverage for the vehicle.

Although the warranty may be added at a later date prior to the expiration of the initial coverage period, we have been advised that the cost will increase at that time due to the vehicle's age and mileage.
